County Engineer

INSTRUCTIONS

- (1) Owner of installation (application by contractor not acceptable).
- (2) Mailing address of Owner.
- (3) State fully and completely type of installation.

If pole line give the following information:

Number of poles, total length of line, type of wire, character of service, vertical clearance over pavement, and voltage if power line.

If pipe line give the following information:

Type of service, internal size, length of line, depth of trench, kind of pipe (sewer, oil, gas, etc.) or conduit, and if pipe is to be driven or if pavement is to be opened. All fluid lines require encasement with suitable material, size and length, satisfactory to the Department.

If access approach give the following information:

Type of construction, width, thickness and drainage data.

- (4) Give Township, Road number and distance from a geographical point such as intersecting State Highways, City or Village limits, section lines, or County and Township Highways.
- (5) Attach a copy of a plan showing proposed location of structures with reference to pavement and right of way line. If installation crosses the highway, show present roadway and proposed installation.
- (6) Give anticipated dates for beginning and for completion of proposed installation.
- (7) If the proposed installation requires the opening of pavement across a road a separate permit must be filled out.
